OpenAI must be prohibited because it uses my driving license I stopped in its activity

I already contacted many different things like
Bundeskraftfahrtamt
Ordnungsamt
US police, but nobody helped me.

Here you can read about why this OpenAI is not legal:

<https://fs-abgabe-freiwillig.de/?s=ki>

I am a former Leapforce rater and deleted my accounts at Amazon.de and Amazon.com since a longer time.

Interesting details about Trump and so and what I think that he has to do with my driving license, you can read here:

Please do care, that somebody immediately pays me money on my bank account, because they did not give me Sozialleistungen since over 1 year, and I had to do 17 suitcases.

I must pay my invoices from Strato and all-ink.com and much more companies.

I thought, I must react on this article (I was never able to create an account at OpenAi, because it bases on my quitted driving license):
